Produkt Information

MaxiWipes / MaxiWipes-L

ALPRO MEDICAL GMBH

Cleaning and disinfection of surfaces

as at: 8 July 2015

Large dry wipes in the MaxiWipes-Box for the cleaning and disinfection of surfaces of medical devices in combination with MinutenSpray-classic or PlastiSept.

- *nonwoven tearproof wipes of high quality*
- *optimal application of active solution*
- *effective cleaning action by means of micro pore technology*
- *large / extra large wipes:*
  - *MaxiWipes: 17x26 cm,*
  - *MaxiWipes-L: 20x40 cm*

  (ideal for large surfaces)
- *suitable for all purposes (with MinutenSpray-classic or PlastiSept)*

MaxiWipes Box

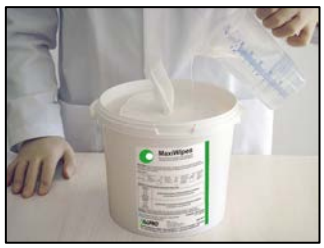

Cardboard box with 4 refill reels (of MaxiWipes or MaxiWipes-L)

MaxiWipes-L Box

Application

1.

2.*

3.

*To soak the dry wipes use either PlastiSept** (alcohol-free) or MinutenSpray-classic** (alcoholic).

1. Remove the lid of the MaxiWipes Box. (To refill put the reel into the box).
2. Soak the dry reel with the requested disinfection solution.

   MaxiWipes/reel: 1,5 ltr. PlastiSept or 2,5 ltr. MinutenSpray-classic
   MaxiWipes-L/reel: 1,5 ltr. PlastiSept or 2,5 ltr. MinutenSpray-classic
3. Pull the first wipe through the tear-off slot of the lid, close the box and allow the wipes to get soaked for 30 minutes. Then the wipes are soaked sufficiently and ready for use.

After being soaked by MinutenSpray-classic or PlastiSept the MaxiWipes are usable for at least 28 days – provided that the dispenser lid of the box is always closed tightly.

Produkt Information

MaxiWipes / MaxiWipes-L

ALPRO MEDICAL GMBH

Cleaning and disinfection of surfaces

as at: 8 July 2015

Field of application

MaxiWipes soaked with PlastiSept are especially suited for surfaces sensitive to alcohol of equipment such as treatment units (e. g. upholstery, head rests), suspension tables, in the X-ray area (e. g. chin rests at OPG) and for surfaces of acrylic glass (also for solarium beds).

Field of application

MaxiWipes soaked with MinutenSpray-classic are suited for surfaces compatible with alcohol if quick drying and a comprehensive disinfection are required.
